## **Nutritional Counseling & Therapy Policy**

The general policy, beginning Feb. 1, 2010, of Jurik Chiropractic & Wholistic Health Care is to charge all Nutritional Counseling and Therapy patients at the time of service. All patients will be responsible for charges at the time of service. This includes any assessment, counseling, or supplements received by the patient regardless of their insurance.

We have had multiple issues in the past as far as re-imburement from insurance companies for various reasons and because of this have found it necessary to instill the current policy. We will be happy to provide you with a receipt with appropriate coding and charges listed in order for you to submit for re-imburement.

By signing below you acknowledge, the above and accept the terms of the current policy. If you have any questions please feel free to ask.
